

FEDECOM publishes six new factsheets and launches its Open Call for Follower Communities

FEDECOM pilot factsheets published

We're thrilled to announce the release of six new FEDECOM factsheets, each showcasing the goals and ongoing activities of our three pilot projects, covering a total of six diverse use cases.

- Factsheet 1: Use case of the [Ur Beroa Residential Community – Spain](#) describes how we're enhancing a Residential District Heating network with solar thermal.
- Factsheet 2: Use case of the [Bilbao City Hall -Spain](#) illustrates the trading of self-generated clean power among municipal buildings
- Factsheet 3: Use case of the [Puertollano Green Hydrogen Plant – Spain](#) explores optimizations for green hydrogen production at an industrial site.
- Factsheet 4: Use case of the [TMB Barcelona Station – Spain](#) focuses on zero-emissions public transport fuels.
- Factsheet 5: Use case of the [Swiss Residential Hydropower Federation](#) showcases residential hydropower federations scaling up local clean energy.
- Factsheet 6: Use case of the [BeNeLux Cross-country e-mobility Federation](#) details cross-border EV charging synergies.

Through these pilots, FEDECOM aims to empower local energy systems with flexible trading, smart controls, and greater community engagement to unlock the full potential of decentralized clean energy across Europe.

Open call for becoming a FEDECOM Follower Community

If you're part of an energy community initiative in Europe and interested in following FEDECOM's progress, we invite you to become a Follower Community (FC).

This is a non-binding expression of interest, and we won't request any specific effort from Follower Communities (FCs). However, your optional feedback will help us fine-tune the services and ensure maximum impact for communities across Europe.

By becoming a FC, you'll receive:

- ✓ Early insights into project results and tools (a few updates expected between 2025 and 2026)
- ✓ For early respondents, a tailored assessment of energy community services in your country
- ✓ Invitations to upcoming workshops and knowledge-sharing events, with no obligation to attend

We invite you to contact us to join the FEDECOM's Follower Community network.
